Hi Andrea,

This is an update regarding your request for bond release on the Pearl Queen and Schoo pits in Beaver County, which are permitted as the Pearl Queen Perlite mine (M/001/0027).

I have visited the sites, and will recommend a partial release of reclamation surety. You will receive an inspection report in the near future.

I spoke with Ed Ginouves (BLM-Cedar City) today, who had not received your request for bond release, so I forwarded a copy of your request to him. Prior to writing a letter authorizing a partial release of reclamation surety, the Division will need to receive a letter from the BLM, concurring with a partial release of surety and indicating the amount of surety to be retained for revegetation of the Schoo pit, which is on BLM land.

Once we receive the BLM letter and a concurrence email from SITLA (the State of Utah minerals leasing agency), we will be ready to release the surety. Let me know if you have any questions.

Peter

Hi Ed and Kelly,

Here's a reminder of and request for confirmation for the Schoo / Pearl Queen perlite mine inspection on this Tuesday morning (June 10th) at about 10am. I don't think I heard back for sure on the time, but will plan to be there at the pit at about 10am, unless that won't work for others. I hope to see you then. Thanks.

Peter

Thanks. Tuesday, June 10th would be the best for me. I can be at the site at 10am, if that time works for Ed and Kelly.

I'll make some time to review the approved reclamation plan beforehand.

Peter

Presently, either day works for me.

Peter –

I have checked with Kelly and either June 10 or 11th would work for him. I am copying him on this email as well.
